

PERURI VEERA VENKATA DURGA MAHESH

AI-Focused Full-Stack Developer (Python, Flask, React/TypeScript)

[Portfolio](#) | [LinkedIn](#) | [GitHub](#) | immahesh300@gmail.com | +91 8106073636

SUMMARY

- Full-stack software developer (AI-focused) with hands-on experience building **production-grade web applications** using **Python, Flask, React, TypeScript**, and **AI integrations (OCR, GenAI APIs)**. Strong fundamentals in **data structures, algorithms, OOP, RESTful APIs, and system design**, delivering real-world solutions in **healthcare analytics** and **workflow automation**.

EDUCATION

Degree	Specialization	Institute	Year	CPI
B. Tech	Computer Science & Engineering (AI)	Pragati Engineering College	2024–2027	8.04
Diploma	Computer Science & Engineering	GIET Polytechnic College	2021–2024	7.93
SSC	-	MPL CORPN HIGH SCHOOL	2020-2021	10.0

WORK EXPERIENCE

- Python Full-Stack Intern** [Anurag IT Solutions Pvt. Ltd.] Dec 2023–May 2024
 - Developed full-stack features using **Python, Flask**, and **Tkinter**; **designed REST APIs** and modular GUI components.
 - Integrated **SQLite/MySQL** for data persistence; improved reliability through **refactoring, testing**, and **debugging**.
 - Followed real-world **SDLC** practices with **Git-based version control, documentation, and iterative delivery**.
- Software Intern (Technical Training / Project)** [Infosys] Nov 2025–Feb 2026
 - Led end-to-end development of an **AI-powered medical report analyzer**, contributing to **system design, backend architecture, and full-stack implementation**.
 - Built full-stack pipelines using **React, TypeScript, and Flask** to process **PDFs, OCR images, and CSV** medical data.
 - Developed **real-time dashboards** and automated **PDF report generation** for clinical insights.
 - Designed **modular OCR pipelines with fallback logic** to improve data extraction accuracy and reliability.
 - Implemented **AI analysis modules** for risk scoring, abnormality detection, and confidence metrics.

PROJECTS

- MediQ – AI Medical Report Analyzer** [Infosys Virtual Internship Project] Nov 2025–Feb 2026
 - Built an **AI-powered full-stack system** to analyze medical reports (PDF, OCR images, CSV), delivering **risk scoring, abnormality detection, and confidence metrics**.
 - Designed an interactive **real-time dashboard** with **automated PDF report generation**, and a modular backend with **OCR pipelines and fallback logic** to improve extraction accuracy and reliability.
- Faculty Management System (FMS)** [Full-Stack System Design Project] 2024-2026
 - Designed and developed a **full-stack web application** for attendance, assignments, and performance dashboards using **Python, Flask, React/TypeScript, and SQL**.
 - Implemented **REST APIs**, role-based workflows, and modular services to **automate academic processes** and improve usability for daily operations.
- SelfSync – Personal Productivity & Growth System** [Product/System Design Project] 2026
 - Architected a **personal operating system** to track habits, goals, and daily workflows with **dashboards, reminders, and progress analytics**.
 - Focused on **system design, modular backend services, and UX-first flows** to support consistent productivity and real-world personal use.

TECHNICAL SKILLS

- Languages:** Python, JavaScript, TypeScript, C, C++, Java (Basic) | **Data & Notebooks:** Pandas, NumPy, Jupyter
- Tools & Dev Workflow:** Git/GitHub, VS Code, Postman | **Databases:** SQL (SQLite, MySQL)
- Frameworks & Libraries:** Flask, React | **CS Fundamentals:** Data Structures & Algorithms, OOP
- AI/ML:** Applied ML, OCR pipelines, AI integration (GenAI APIs) | **Backend & APIs:** REST APIs

HACKATHONS & LEADERSHIP

- STRIDES 2024:** Built a **Placement Tracker Dashboard** using **Django and Firebase**, delivering real-time backend integration and responsive UI; appreciated by department HOD.
- GDG Code Playground 2025:** Developed a **lightweight online code editor** using **HTML, CSS, JavaScript**, focused on beginner-friendly UX and real-time interaction.
- Class Representative & Project Lead (Diploma):** Led coordination for **60+ students**, managed class updates/events, and delivered the **Pythonic Quiz** final-year project through structured planning and teamwork.
